DSG Acquires New Facility, Moves Corporate Headquarters Closer to Key Clients

MALVERN, PA (October 12, 2005) – Fantastic growth has required DSG, the industry's largest privately-held EDC (electronic data capture) solutions provider, to acquire a state of the art facility to accommodate its rapid expansion. DSG has now completed the move to their new global corporate headquarters in the Great Valley Corporate Center in Malvern, Pennsylvania. Over the past 12 months, DSG has added 19 new clients while continuing to maintain 97% retention rate with existing clients. The addition of the new 28,000 sq. ft. facility is expected to accommodate the company's growth and ever-growing client base for the immediate future, with future expansion slated for the UK, France, Japan and Australia.

Effective Today, DSG's new corporate address is:

325 Technology Drive
Malvern, PA 19355
Tel: 484-913-0210 Fax: 484-913-0224

The company, founded in 1992 by Anthony Varano, has over 300 clients in the pharmaceutical, medical device and life sciences industries and has been a major contributor in moving these industries to safer and more effective clinical trial management practices. 100% employee-owned and operated, DSG has achieved consistent double digit growth for over five years through sales and services related to their electronic data capture technology, eCaseLink™ and their electronic patient reported outcomes solution, eDiaryLink™. In addition to their two flagship technologies, DSG offers a full suite of clinical data management solutions, including: CaseXport™ clinical data archiving tool, CaseView™ electronic data imaging, CaseLink™ on-demand case report form printing management software, a fully integrated medical auto-encoder, and ArchiTECH Affiliates™ technology transfer software.

"DSG is a technology company dedicated to the discovery and development of cutting-edge software solutions for the pharmaceutical industry, while also providing the best services for our clients," said Tony Varano, President and CEO of DSG. "Our growth is a testament to the industry's evolution and its need to improve safety and increase transparency while reducing the overall time required to bring products to market. Over the past two years, we have experienced exponential growth, in our number of clients, trials and employees. Our move to the Great Valley Corporate Center will position us for future expansion, and assist us in delivering the best technologies in the industry. "

With over 100 employees, DSG now operates three development and delivery facilities in Pennsylvania with regional offices in Chicago, San Diego, and Tianjin China.

About DSG, Inc.

Since 1992, DSG, Inc. has been supporting clinical trial data collection with innovative technology solutions including EDC, ePRO and digital on-demand CRF publishing software to over 300 companies in the life science industry. DSG's products allow friendly, accurate and efficient data capture at any investigator site regardless of the site's technological

infrastructure. eCaseLink™, DSG's pioneering EDC technology, allows site users immediate server edits, without the traditional need to first save or submit, is fully integrated with eDiaryLink™ ePRO, and offers the highest site acceptance, fastest submission speed, and nominal set up time. DSG has successfully supported over 250 clinical trials, at over 14,000 sites, with over 200,000 patients world-wide. For more information, please visit www.dsg-us.com.
