DSG and Ovation Pharmaceuticals Partner in Several Phase I Studies

DSG is One of OVATION's Preferred Providers for Phase I Studies

Malvern, PA, May 13, 2008 – DSG, Inc., a leading EDC and clinical software technology provider, today announced that OVATION Pharmaceuticals, Inc. (OVATION) is using DSG's award-winning eCaseLink EDC software to conduct several Phase I clinical trials. DSG is one of OVATION's preferred providers for EDC software for these studies.

To date, OVATION has used eCaseLink for five Phase I studies, and has seven Phase I studies underway or planned for 2008 and six Phase I studies planned for 2009.

"We looked at a number of vendors before choosing to work with DSG. We chose DSG's eCaseLink for a number of our Phase I studies because it is very intuitive and user-friendly, and provides exceptionally clean data, as well as real-time data and monitoring. This translated directly into significant time and cost-savings for us," said Robert Anders PharmD, Vice President of OVATION's Clinical Operations. "DSG supported very tight timelines for our Phase I studies."

"We are pleased to work with OVATION, which continues to bring important therapies to market for very specific, high-need patient groups. The company has an impressive new product pipeline and we are proud to be a part of that process," said Tony Varano, CEO of DSG. "To complement our award-winning eCaseLink software, we are providing our EDC-focused Data Management services to increase their trial efficiencies even more."

About DSG

Since 1992, DSG, Inc., headquartered in Malvern, PA, has supported clinical trial data collection with innovative technology solutions including its award-winning EDC software eCaseLink, electronic patient diaries and digital on-demand CRF publishing management software. DSG's products allow user-friendly, accurate and efficient data capture at any investigator site regardless of the site's technological infrastructure. DSG has successfully supported over 500 EDC studies. Clients include top five pharmaceutical, biotechnology, and medical device companies. For more information, please visit www.dsg-us.com

About OVATION

OVATION Pharmaceuticals is a fast-growing biopharmaceutical company that develops, manufactures and markets medically necessary therapies to satisfy unmet medical needs for patients with severe illnesses. Headquartered in Deerfield, Ill., with products available in more than 85 countries, OVATION is committed to having a significant impact on patients' lives through its focus on CNS, hematology/oncology, and hospital-based therapies. More information about the company, its products and full prescribing information may be found at <http://www.ovationpharma.com>
